

## Peace Circles

Create a foundation for Peace within yourself, your life, and intentions for others. Deep within all of us, is a well spring from where our essence of truth, right action, peace and love flow. These 4 principles govern the operating system that is the foundation of our lives. The principle of peace is our natural state of being, and when we feel blocked from this state we are believing false ideas about ourselves, taking life personally, and projecting this confusion outward affecting others. Peace Circles are a healing system that directly transmits Shakti (energy) from Creation's source and will dismantle the false identity of the ego that keeps us hooked in fear, hopelessness, and self doubt. This purification process will strengthen spiritual confidence and restore the clarity that embodies perfect peace.
